

## How to Create Endpoint on a Line on Trimble Siteworks

1. Tap on the menu in the top left.

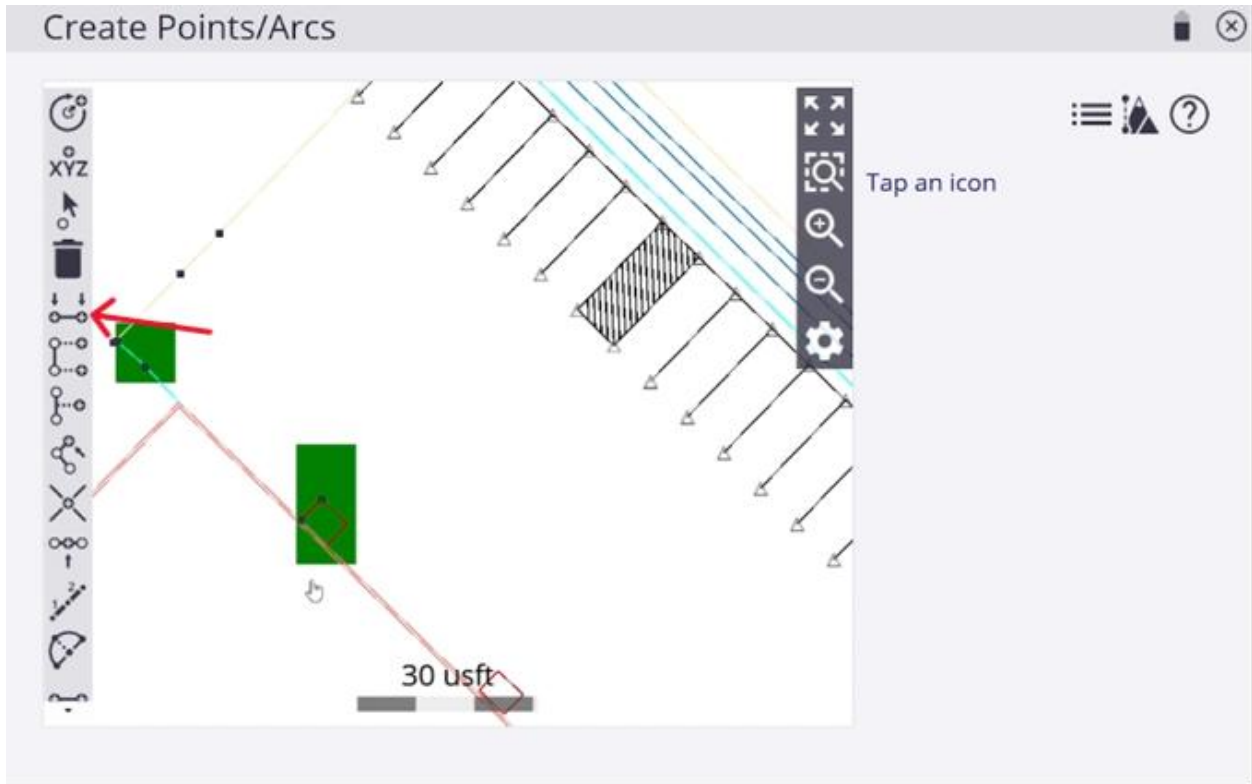

2. Tap on **COGO**.

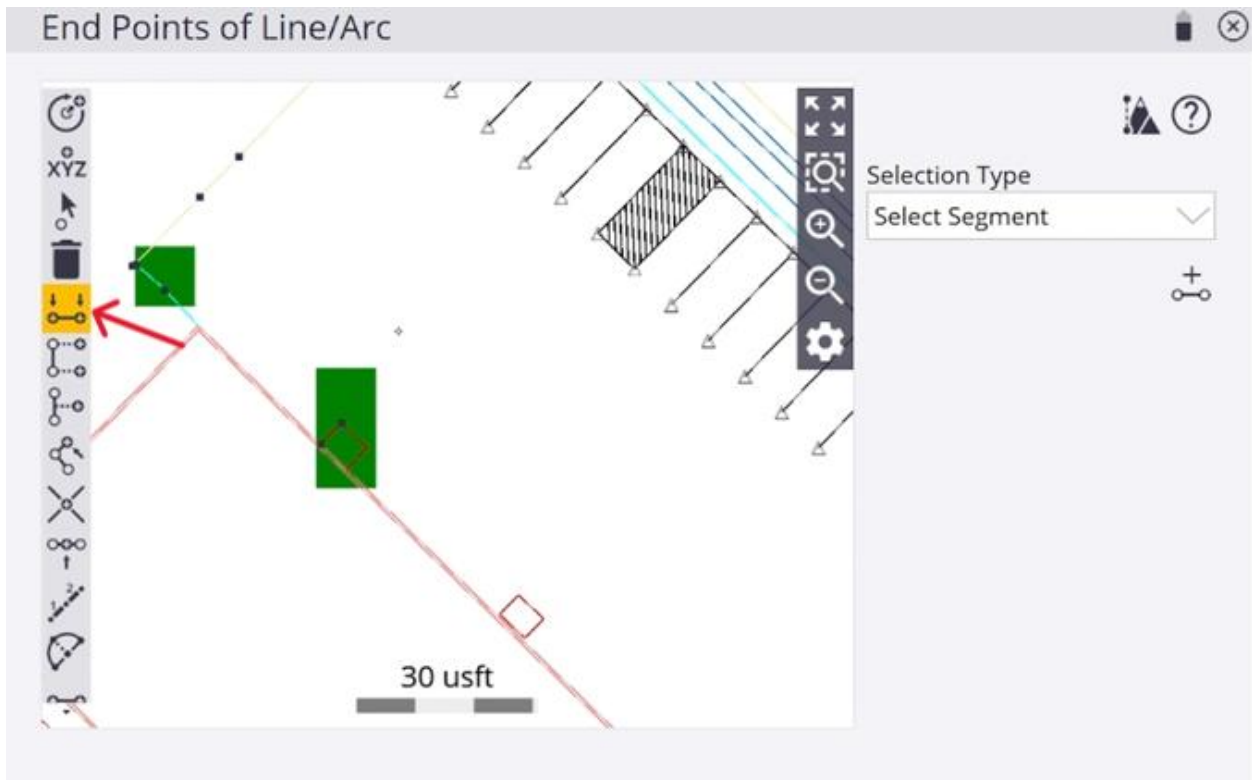

3. Select **Create points/Arcs**.

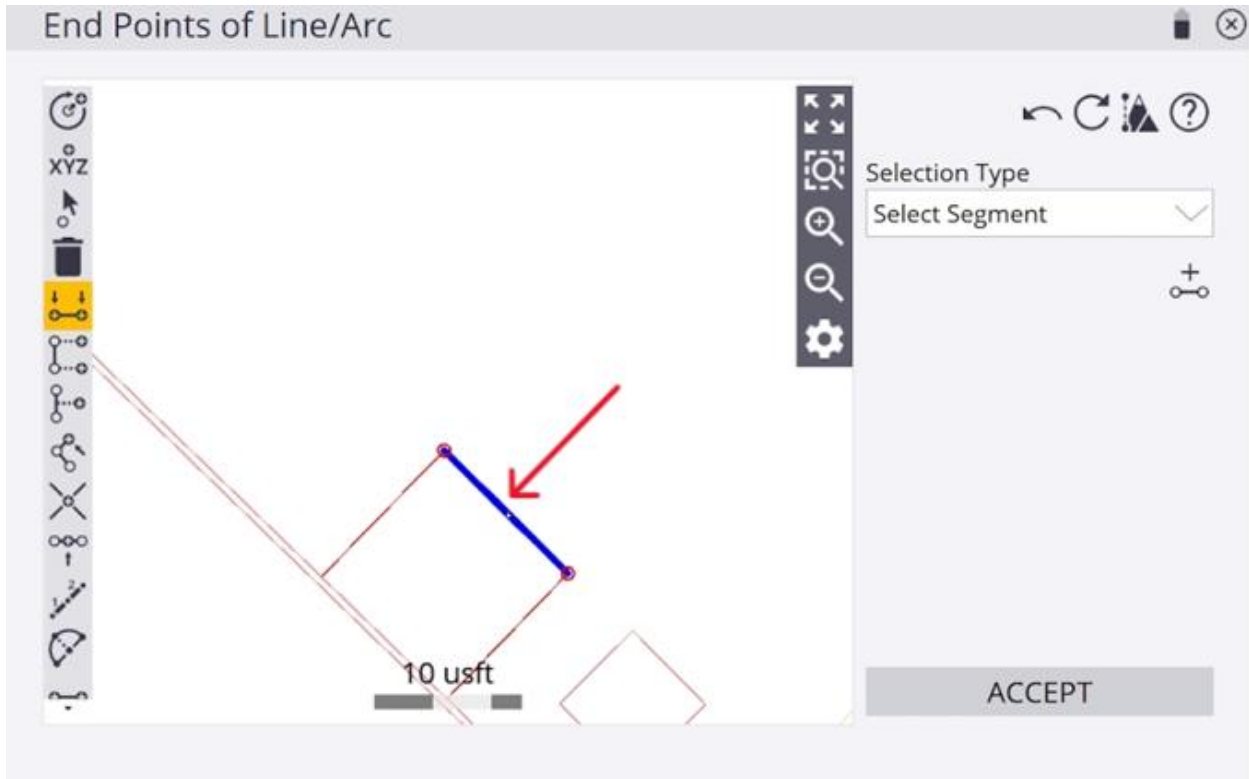

4. Select the endpoint icon.

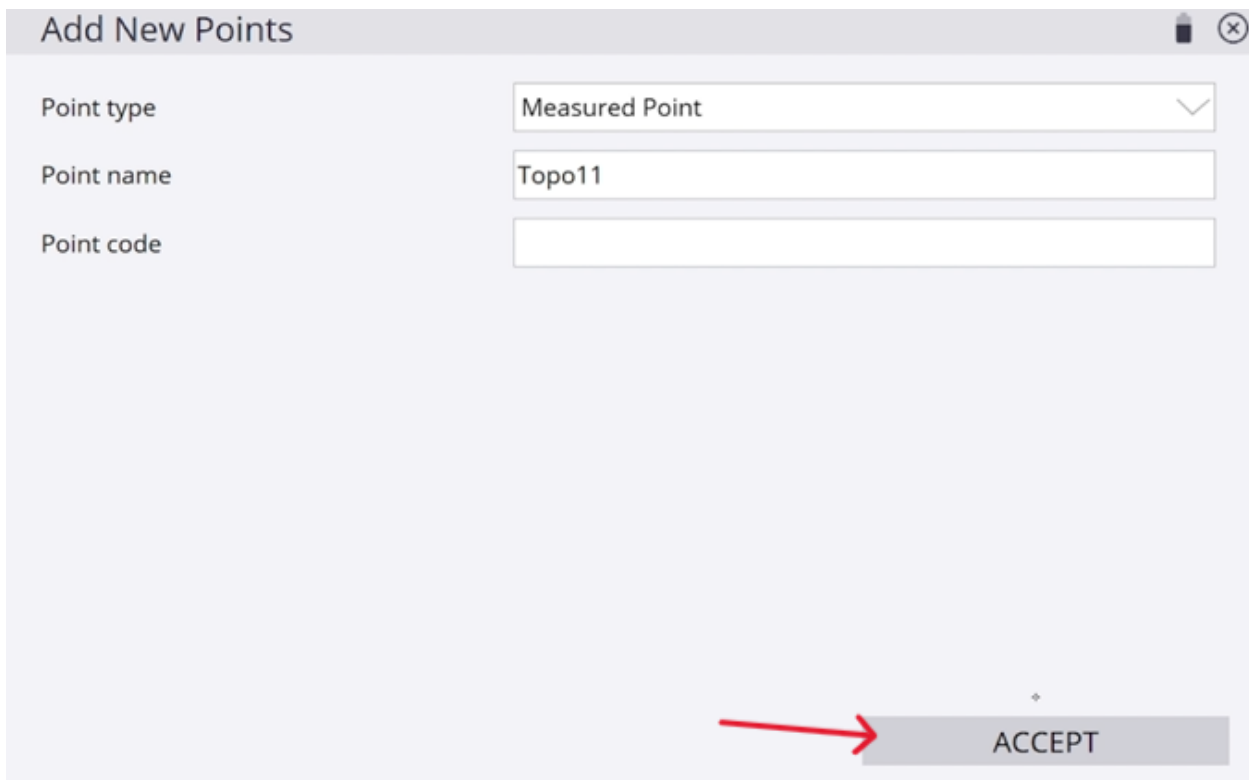

5. Verify its highlighted yellow.

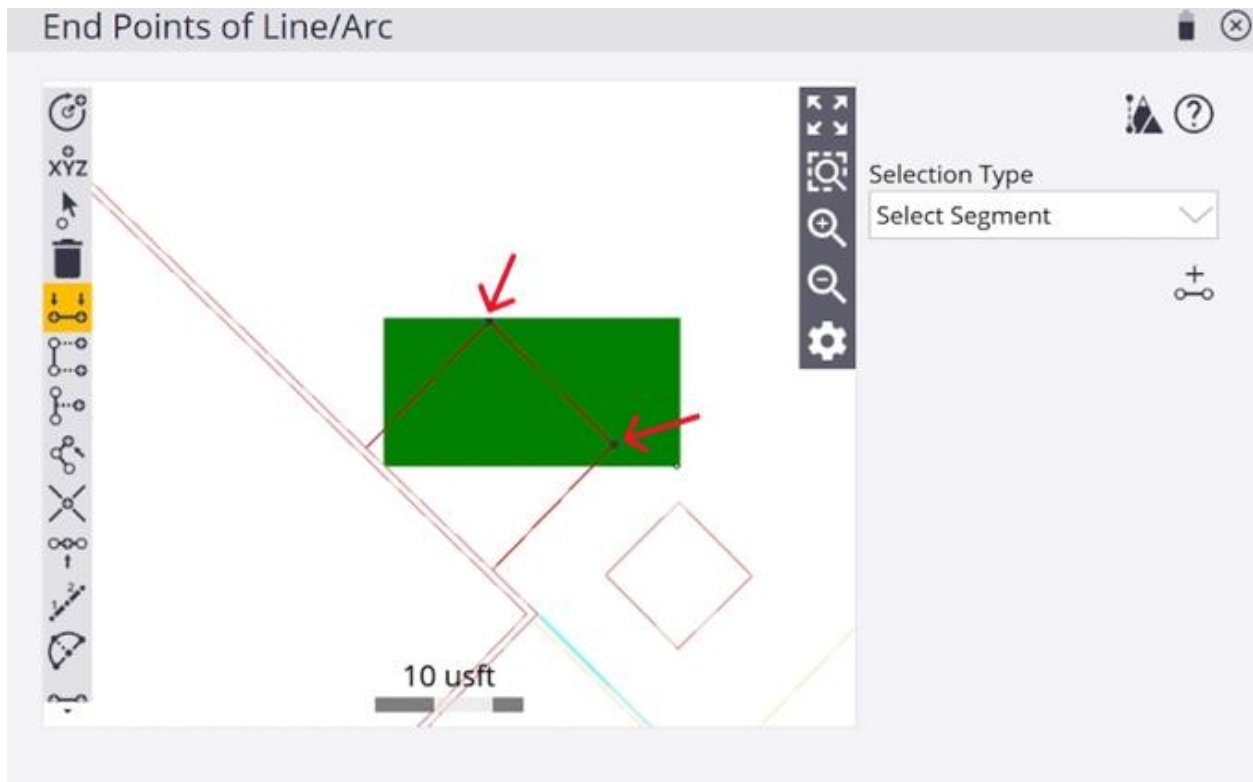

6. Select the line you want to make the endpoints on.

7. Tap **ACCEPT**.

8. Now you will see endpoint created.
